

Additional Information

- Ready to work on UAE (Open to work)
- Ready to work for Web Developer & UI/UX Designer

UX/UI Designer

12/2022 - 03/2024

Triton Tech Labs - (Tenkasi, India)

As a UI/UX Designer at Triton Tech Lab, I focused on creating visually appealing, user-centric designs to solve user problems and enhance satisfaction. I collaborated with developers, IoT teams, and marketing to deliver intuitive design solutions, primarily for the medical industry.

Key Project

1. Digital Token Display System

Designed the UI for a Digital Token Display System, conducting user case studies to identify key issues and solutions. Integrated features like vital sense calculation and mobile token booking, improving hospital operations and increasing patient engagement by 20%.

2. Smart Water Management System

Designed the UI for a Digital Token Display System, conducting user case studies to identify key issues and solutions. Integrated features like vital sign calculation and mobile token booking, improving hospital operations and increasing patient engagement by 20%.

3. Ancestor Family Tree Application

Designed the UI for a web-based platform to store family details and medical records, helping users analyze family conditions and locations. Collaborated with users, developers, and stakeholders to ensure a seamless experience.

Freelance Graphic Designer

08/2022 - 11/2022

Midas Apparel- (Sharjah, UAE)

As a Freelance Graphic Designer, I created visually appealing social media and printable designs, including posters, logos, brochures, and mockups for industrial outfit marketing. I worked closely with production teams, marketing teams, stakeholders, and clients to deliver custom designs aligned with branding and business goals.
